BioStart™ RhizoBoost
Microbial Soil Inoculant
NONPLANT FOOD INGREDIENT

BioStart™ RhizoBoost contains naturally occurring, beneficial microorganisms which may enhance biodiversity of the soil ecosystem.

- CONTENTS:** Guarantee: 250 million total CFU (colony forming units) per cubic centimeter of the following organisms:
Bacillus laterosporus (Strain A) – 85 million CFU/ cc (CFU/ ml)
Bacillus laterosporus (Strain B) – 85 million CFU/cc (CFU/ ml)
Bacillus chitinosporus – 60 million CFU/ cc (CFU /ml)
Bacillus licheniformis – 20 million CFU /cc (CFU /ml)
- DIRECTIONS:** Apply directly to soil at 1 to 6 gallons per acre. Multiple applications work best. Best results are obtained when product is concentrated in the root zone through drip irrigation or soil injection. Co-apply with organic fertilizer or compost for enhanced response.
- STORAGE:** Store below 80°F. Do not freeze. Density: 8.4 pounds per gallon
- CAUTIONS:** This product does not substitute for a sound fertilizer program. Generally nonhazardous. Consult Material Safety Data Sheet. Biodegradable. Do not spray or inhale. After contact, flush with water.
